

# About Buckeye Life Resources

Buckeye Life Resources is a life settlement brokerage based in suburban Cleveland. The company was founded by **Todd Everson** to offer life insurance policy owners a competent, reliable and in-state resource for the sale of their policies in the secondary market.

As noted in more detail below, Todd is uniquely qualified in the life settlement space due to his experience on both sides of the transaction – as a broker representing sellers and as a provider working on behalf of buyers. This background lends to a thorough understanding of the industry and its many intricacies.
